

Product Pricing Worksheet

A print-friendly calculator for handmade and small-batch offers.

Work the numbers

Use realistic time. Your labor is not free just because you enjoy the work.

Materials per unit	\$	_____
Packaging per unit	\$	_____
Labor time	hours x \$	_____
Overhead cushion	\$	_____
Desired profit	\$	_____
Retail price	\$	_____

Quick formula

Materials + packaging + labor + overhead + profit = retail price

Reality checks

Would wholesale still work? Would a customer understand the value? Can you make it repeatedly?
